

Joseph Juneseop Choi. First year student @Purdue University
josephkr325@gmail.com / choi1157@purdue.edu

EDUCATION

- **Dubai American Academy - Dubai, United Arab Emirates**
American Education, Grade 8 - Grade 10
- **American Community School - Abu Dhabi, United Arab Emirates**
American Education, American High School Diploma & IB Diploma, Grade 11 - Grade 12
Anticipated graduation: June 2026
- **Purdue University - West Lafayette, Indiana**
First Year Engineering (FYE) student, intended Astronautical/Materials Engineering student
Incoming class of 2030
- Engineering-related courses: Johns Hopkins - 'Arduino Prototyping', AP Computer Science Principles (5), AP Computer Science Advanced (5), AP Calculus AB (5), IB Mathematics Analysis and Approaches HL, IB Physics HL, IB Chemistry HL
- Cumulative GPA: 3.83(9 - 10), 4.29/3.92 (11-12)

SKILLS

- **Technical:** [Fusion360, Blender, LEGO Studio, Procreate, Gimp, Wordpress, Java, Python, Excel]
- **Soft Skills:** [Communication (Eng, Spa, Kor, Ita), Problem Solving, Teamwork, Adaptability]

EXPERIENCE

Research Intern - Solid-State Battery Lab | HEIDRON | 2025

- Assisted in fabricating hybrid flexible electrolytes for all-solid-state lithium batteries, contributing to 2 experimental iterations.
- Co-authored a peer-reviewed abstract with a Khalifa University professor and doctor on roll-to-roll fabrication processes for solid-state battery manufacturing, accepted for presentation at the Materials Research Society 2026 Spring Conference in Hawaii.

Web Developer & Coordinator | KSEAU: Korean Scientists and Engineers Association in the UAE | 2025

- Built and launched the association's official website end-to-end, directly contributing to the organization's recognition as an official associate member under The Korean Federation of Science and Technology Societies (KOFST), South Korea's scientific governing body.
- Earned the title of the association's first-ever junior member, recognized for delivering a fully functional site and content management system that enabled the association to meet KOFST's institutional credibility requirements.
- Ran a handoff session with association staff, writing documentation and training another coordinator to independently manage and update content, ensuring the platform kept running after the internship ended.

AI & Industry Research Intern | WEMADE | 2024

- Delivered a 14 slide research report on Dubai's gaming sector and AI adoption trends, informing WEMADE's DIFC partnership strategy by synthesizing 6 industry sources and presenting findings to the leadership team.

Engineering & AI Research Intern | AAAS Architectural Consultants & Engineers | 2024

- Contributed to a research initiative on AI-assisted design automation, producing a 9 page findings brief that helped the firm evaluate 3 AI tooling options for integration into its multidisciplinary workflow.
- Produced basic architectural diagrams alongside licensed engineers, developing hands on fluency with professional design documentation workflows and contributing to an active client project during the internship.

SCHOOL EXTRACIRCULAR ACTIVITIES

MU Alpha Theta Maths Honor Society - Interview Committee

- Inducted early as a founding member, and served on the interviewing committee, evaluating 5–10 applicants per cycle against the society's academic and character standards, helping maintain the chapter's selectivity and reputation.
- Organized 5 school wide math events, including during Pi-day, Fall Festival, and Holiday Extravaganza, and grew participation and interest in Mathematics for the lower grade students.

Strings Society Club - President/Founder of School's Strings Orchestra/1st Violinist

- Led the school string orchestra as president, coordinating weekly rehearsals across 11 members and culminating in a joint performance of Vivaldi's *Gloria* with the school choir at the Winter Concert.

Robotics Club - Mechanical Engineer/Communications Officer

- Modelled, prototyped, and built the ROV's physical hardware as the team's mechanical engineer, competing against 10+ teams at the 2025 MATE ROV competition in Alexandria, winning the Team Spirit Award. Documented all progress into a 20-page technical report as communications officer.

Varsity Wrestling - Co Captain

- Competed in the Middle Eastern South Asian Conference (MESAC) for all 4 years of high school, finishing 2nd in Cairo (2024, 65kg) and 3rd in Doha (2026, 70kg) out of 6 competing schools and 200+ athletes.
- Led team of 25+ in 4 weekly trainings, translating personal athletic discipline into a coaching and leadership role without formal oversight.
- Led 'Mini Vipers', a weekly volunteering program coaching elementary school students in wrestling through recreational activities.

The Capital Society Economics & Finance Club - Founder/Officer of Design & Technology

- Co-founded the school's economics and finance society, growing it to 70+ members as the largest student-led organization on campus.
- Organized 9+ guest speaker events featuring CEOs, investment bankers, portfolio managers, and professionals from Goldman Sachs, MIT, and Mubadala, alongside hosting 2 investment competitions.
- Led design and technology operations, managing the club's website, branding, and social media presence to support outreach and sustained engagement.
